The historic partnership between the California Community Colleges and the California State University under the Associate Degree for Transfer program guarantees ADT earners admission to the CSU with junior standing. To fulfill the promise of the Associate Degree for Transfer program, CSUs must ensure there is a clear pathway for students to transfer under the same program of study as their ADT.

These three California State Universities are recognized for having the:

- Highest number of transfer students with ADTs on guaranteed paths
- Largest absolute growth in transfer students with ADTs on guaranteed paths, or
- Highest percentage of transfer students that have ADTs and are on guaranteed paths.

CALIFORNIA STATE UNIVERSITY, FULLERTON

In Fall 2018, CSU Fullerton enrolled 1,855 Associate Degree for Transfer students, 78% of whom were admitted under a guaranteed pathway aligned with their ADT degree. This makes CSU Fullerton the top enrolling institution for ADT transfer students on their guaranteed pathway relative to the total number of transfer students enrolled. CSU Fullerton is in Orange County and enrolled 3,613 transfer students in Fall 2018.

CALIFORNIA STATE UNIVERSITY, LONG BEACH

In Fall 2018, CSU Long Beach enrolled 1,959 Associate Degree for Transfer students, the highest enrolling ADT CSU campus. Sixty-eight percent of ADT students were admitted under a guaranteed pathway aligned with their ADT degree. This makes CSU Long Beach the 2nd highest enrolling institution for ADT transfer students on their guaranteed pathway relative to the total number of transfer students enrolled. CSU Long Beach is in Los Angeles County and enrolled 4,220 transfer students in Fall 2018.

CALIFORNIA STATE UNIVERSITY, LOS ANGELES

In Fall 2018, Cal State LA enrolled 1,330 Associate Degree for Transfer students. The university grew their enrollment by 441 degrees from Fall 2017, making it 1st among the 23 California State Universities in growth of ADT transfers. Cal State LA is in Los Angeles County and enrolled 2,991 transfer students in Fall 2018.

WHY TRANSFER?

California Community Colleges enroll 2.2 million students with the majority stating they intend to transfer to a four-year university. Despite student intentions and one of the California Community Colleges' core missions being to provide a transfer pathway to the state's four-year universities, only 4% transfer after 2 years, and the numbers are lower for students of color.

That is why in 2010, together with then Senator Alex Padilla, the Campaign for College Opportunity sponsored historic transfer reform legislation, SB 1440, to significantly increase the number of students who transfer with a degree in hand. Since then, over 200,000 students have earned an Associate Degree for Transfer—and those enrolled in the CSU have earned their bachelor's degree almost twice as fast as other transfer students.

ASSOCIATE DEGREE FOR TRANSFER PROVIDES A PATH FOR SUCCESS

The Associate Degree for Transfer is a streamlined and simplified pathway for students, which offers the following:

- 40 academic degree offerings
- Associate's degree earned before transferring
- Guaranteed admission to a CSU campus
- GPA admissions bump for CSU campuses or majors in high demand
- Guaranteed junior standing at the CSU
- Seamless 120-unit pathway—60 units at the community college and 60 units at the CSU to earn a bachelor's degree
