EXCELLENCE IN INNOVATION

In its early stages of SB 1440 implementation, Cuesta College convened leaders across campus departments to strategize ways to move towards 100% implementation of the ADT. Over the years, the work of the self-described “ADT Team” to scale the ADT has led to more than 1,100 degrees awarded between 2014-2017. Today, Cuesta offers 96% of the available ADT pathways. Cuesta College is in San Luis Obispo County and serves approximately 8,000 full-time equivalent students.

This represents 86% of all their possible majors, making them a leading institution among the 23 CSU campuses for their degree alignment to TMCs. CSU Stanislaus is in the Central Valley and enrolled 938 transfer students in fall 2017.

WHY TRANSFER?
California Community Colleges serve more than 2.2 million students, with the majority seeking to transfer to a four-year university. Yet, despite student intentions and one of the community colleges’ core missions being to provide a transfer pathway to the state’s four-year universities, only 4% of students transfer after two years.

That is why in 2010, with then-senator Alex Padilla, the Campaign for College Opportunity sponsored historic transfer reform legislation, SB 1440, to significantly increase the number of students who transfer with a degree and earn guaranteed admission to a California State University. Since then, over 100,000 students have earned an Associate Degree for Transfer, and of those enrolled in a California State University, they have earned their bachelor’s degree almost twice as fast as other transfer students.

ASSOCIATE DEGREE FOR TRANSFER PROVIDES A PATH FOR SUCCESS
The Associate Degree for Transfer is a streamlined and simplified pathway for students, which offers the following:

- 32 academic degree offerings
- Associate’s degree earned before transferring
- Guaranteed admission to a California State University campus
- GPA admissions bump for CSU campuses or majors in high demand
- Guaranteed junior standing at the CSU
- Seamless 120-unit pathway – 60 units at the community college and 60 units at the CSU to earn a bachelor’s degree
