Thank you for joining the Campaign for College Opportunity in advocating for equal opportunity in higher education, where your voice is needed more than ever. Recently, the U.S. Supreme Court overturned the use of race-conscious college admissions, affecting colleges and universities across the country. Race-conscious admissions has been a cornerstone for many Latinx, Black, Asian American, Native Hawaiian and Pacific Islander (NHPI), and American Indian/Alaska Native (AIAN) students seeking college opportunity, the American dream, and to contribute to our Nation’s vibrant multiracial democracy and economy. We join the national outcry condemning this decision as a threat to our country’s very fabric.

We must seize this moment as an opportunity to ensure that all students who have been historically excluded and underserved by our colleges and universities have a real opportunity to go to college and succeed despite this erroneous decision. **Affirming Equity, Ensuring Inclusion, Empowering Action** is a national effort that calls on policymakers and higher education leaders to commit to upholding a fair and equal opportunity to higher education for Latinx, Black, Asian American, NHPI, and AIAN students by elevating evidence-based solutions and strategies in college preparation, recruitment, enrollment, admissions, and more.

Below are sample posts to use as we encourage the public to sign on to the **Open Call to Action**, raise awareness of proactive practices and policies that work towards racial equity, and dismantle systemic barriers that hinder college access and success for Latinx, Black, Asian American, NHPI, and AIAN communities.
