

CSU BAKERSFIELD PROGRESS ON GI 2025 INITIATIVE

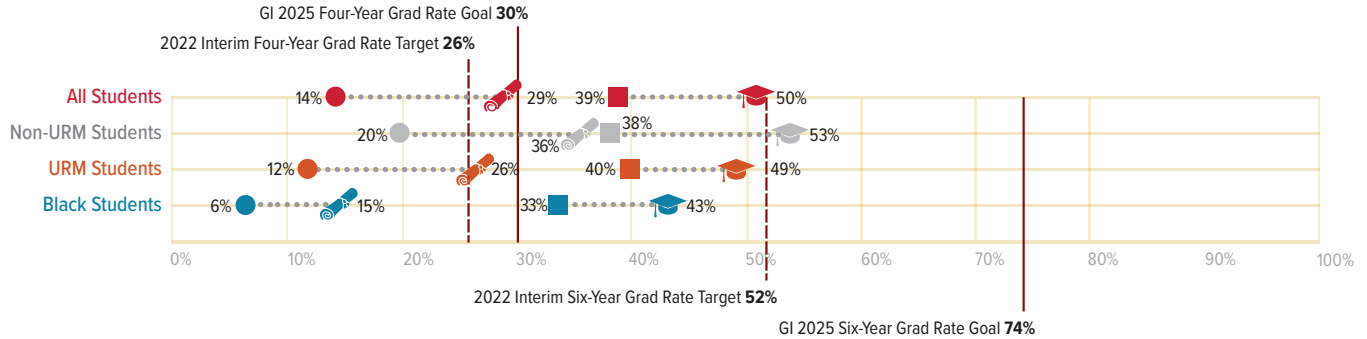

At CSU Bakersfield, the four-year graduation rate for all first-time students has more than doubled, increasing from 14% to 29%, while the six-year graduation rate increased from 39% to 50% since 2015. However, there are significant gaps between non-URM students and URM students- whose graduation rates are 10 points lower after four years and five points lower at the six-year mark. Those gaps are even more prevalent when comparing Black students to non-URM students at 24 points after four years and 10 points after six.

For transfer students, the two-year graduation rate has increased from 36% to 39% and the four-year graduation rate from 64% to 75%. These numbers are nearly identical when comparing URM to non-URM students, however the gap for non-URM and Black transfer students is significant, at 10 points after two years and 11 points after four.

Bakersfield has set three of their four campuswide goals for GI 2025 at rates below the systemwide goal. **The campus is currently on track to reach only two of its own GI 2025 goals, and none of the systemwide goals.** They had previously met the systemwide goal for two-year rates for transfer students three years in a row before backsliding by six percentage points in 2022, post the pandemic.
