

FRESNO STATE PROGRESS ON GI 2025 INITIATIVE

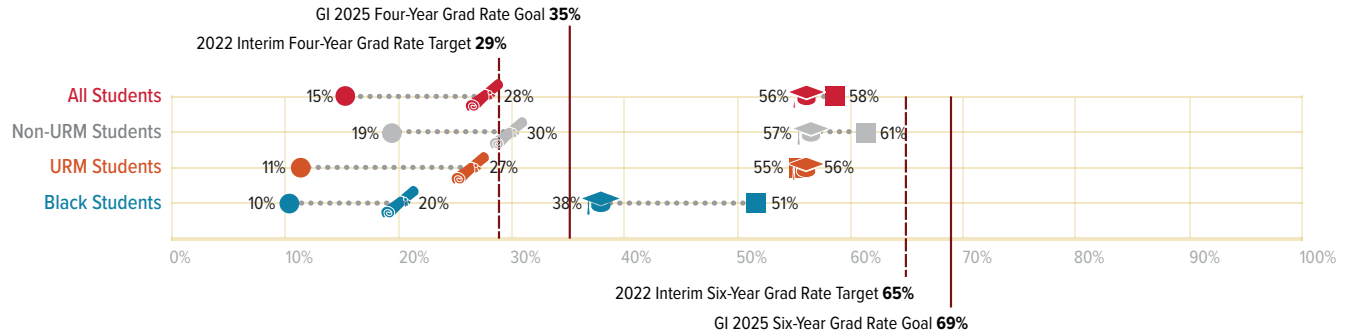

At Fresno State, the four-year graduation rate for all first-time students has almost doubled, increasing from 15% to 28% but the six-year graduation rate has decreased from 58% to 56% since 2015. Gaps persist between non-URM students and URM students- whose graduation rates are four points lower after four years, but the gap is erased after six years. Black students have an equal gap to URM students after four years, but a substantially larger one after six years at 18 points.

For transfer students, the two-year graduation rate has increased from 22% to 34% and the four-year graduation rate from 70% to 78%. URM students have nearly equal rates to non-URM students and having slightly higher rates after two years and slightly lower after four, but the gap between non-URM and Black transfer students persists, at two points after two years and nine points after four.

Fresno has set all of its four campuswide goals for GI 2025 at rates slightly below the systemwide goal. **The campus is currently on track to reach two of their own GI 2025 goals (both for transfer graduation rates), and none of the systemwide goals, although they had been on pace to meet the two-year transfer goal before a modest decline in 2022 likely impacted by the pandemic.**
