

CSU MONTEREY BAY PROGRESS ON GI 2025 INITIATIVE

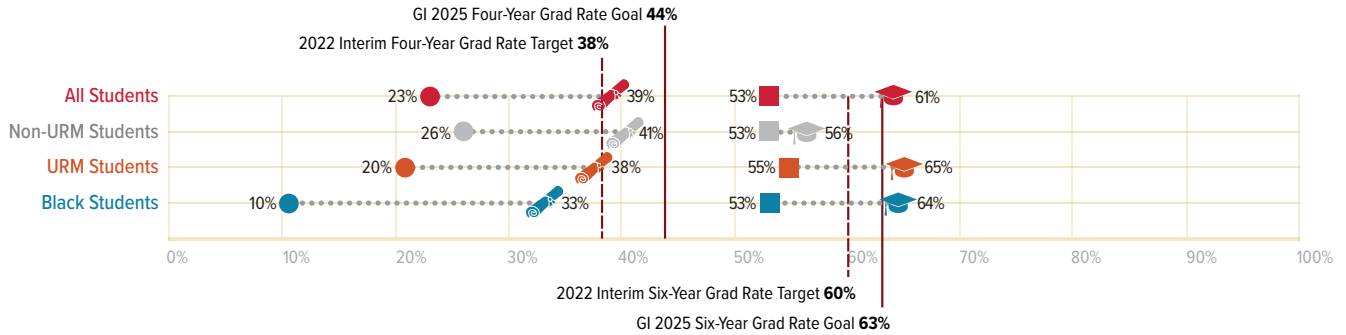

At CSU Monterey Bay, the four-year graduation rate for all first-time students has increased from 23% to 39% and the six-year graduation rate has increased from 53% to 61% since 2015. Gaps persist between non-URM students and URM students- whose graduation rates are three points lower after four years but nine points higher after six. The pattern is similar when comparing Black students to non-URM students at eight points lower after four years but eight points higher after six.

For transfer students, the two-year graduation rate has increased significantly from 34% to 51% and the four-year graduation rate from 70% to 85%. There is no gap between URM and non-URM students. Black transfer students have a sample size too small to determine any patterns.

Monterey Bay has set two of its campuswide goals for GI 2025 at rates below the systemwide goals. **The campus is currently on track to reach all its own GI 2025 goals and three of the systemwide goals.**
