

CAL STATE SAN BERNARDINO PROGRESS ON GI 2025 INITIATIVE

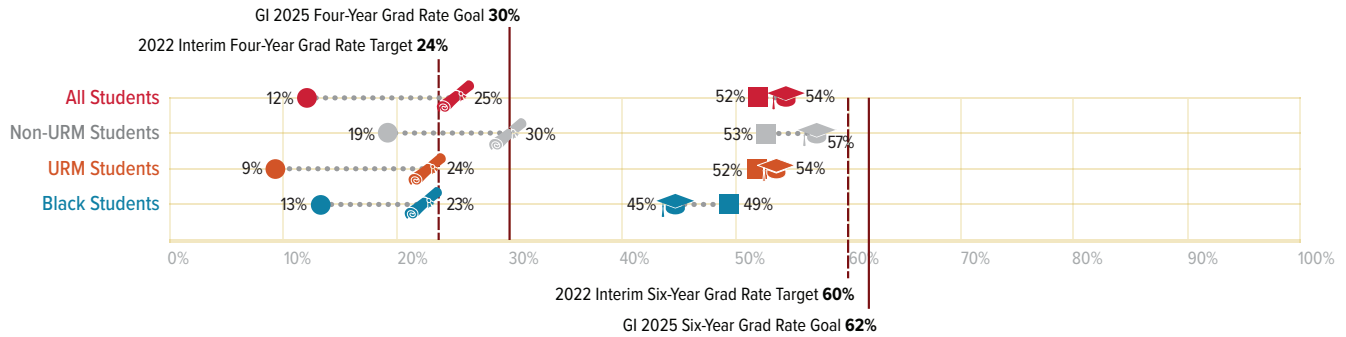

At Cal State San Bernardino, the four-year graduation rate for all first-time students has more than doubled, increasing from 12% to 25%, while the six-year graduation rate has increased only modestly from 52% to 54% since 2015 but rose as high as 59% in the intervening years. Gaps persist between non-URM students and URM students- whose graduation rates are six points lower after four years and three points lower after six. The gaps are even starker when comparing Black students to non-URM students at seven points lower after four years and 12 points lower after six.

For transfer students, the two-year graduation rate has increased from 33% to 39% and the four-year graduation rate from 73% to 82%. There is no gap between URM and non-URM students and Black transfer students have rates compared to non-URM students that are two points higher after two years and one point higher after four years.

San Bernardino has set three of its campuswide goals for GI 2025 at rates below the systemwide goals. **The campus is currently on track to reach two of its own GI 2025 goals and one of the systemwide goals.** They had previously reached a second systemwide goal before seeing their two-year transfer graduation rates drop by 17 percentage points over the last two years.

CAL STATE SAN BERNARDINO GRADUATION RATES

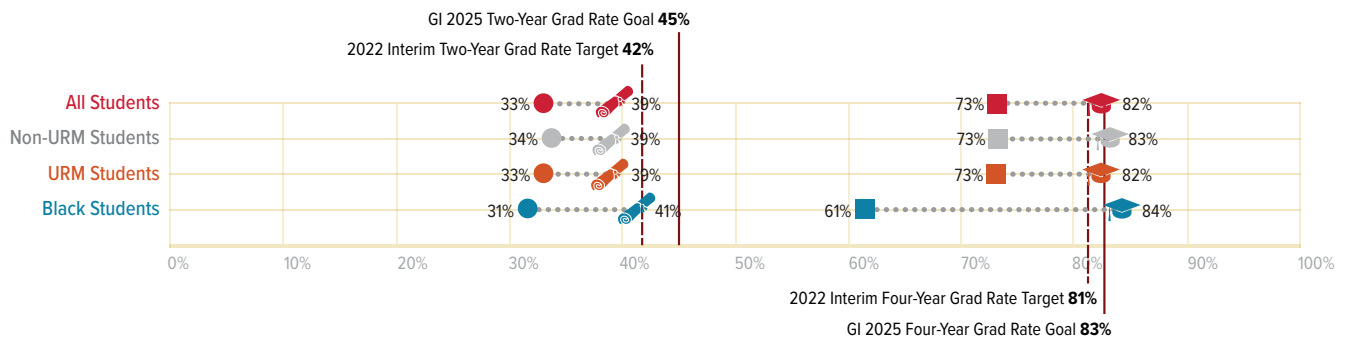

Four- and Six-Year Graduation Rates for First-Time Students

- 2015 Four-Year Grad Rate
- 2022 Four-Year Grad Rate
