California Community Colleges Equity Champions for Black Students

These colleges led the way in supporting Black students to earn an ADT, with at least 65% of their Black associate-degree earners having earned an ADT. These colleges are supporting Black students to perform as well or better in this metric than the rest of their student body. Equity gaps are calculated as the difference between the percentage of Black associate-degree earners who received ADTs as compared to the percentage of the rest of the student body.

- Equity Award Recipients
- Ineligible as fewer than 65% of Black associate-degree earners received an ADT
- Ineligible due to having a gap of greater than 1%
- Ineligible due to insufficient total of ADTs received by Black students (below 10)
- † Ineligible due to insufficient total of any associate degrees received by Black students (below 10)
